

Year 7 Food Technology

Every Year 7 student will do a term of Food Technology, where they will have a fun-filled and delicious ten weeks of cooking and learning about Superfoods. After learning about health and safety, and safe use of equipment, students will be able to use a knife like a professional, and gain skills that they will use for the rest of their lives. Food Technology lessons are carried out in the College's state-of-the-art food technology classrooms, with excellent equipment for hands-on food preparation – and the best part is eating the outcome of the lesson!
