- PC will take place in a virtual meeting every day at 11.20am. You must be in that meeting or you will be recorded as absent for that whole day.
- For each of those scheduled lessons, you must log into Moodle to access the work that you will need to complete. It is recommended that you download your work and save it to your device.
- **For students in Years 7-10**, one lessons for each subject will be a virtual meeting on MS Teams. Details on downloading Teams can be found [HERE](#)
- **For students in Years 11 & 12**, two lessons for each subject will be a virtual meeting on MS Teams. Details on downloading Teams can be found [HERE](#)
- Your teachers will give you instructions each lesson as to whether you have Independent Learning tasks to complete or whether you will meet virtually in your class. They will also instruct you on how to access the virtual meeting on Teams.
- Teachers will also give you instructions as to how to submit your work. Submission of work is essential to show your teachers that you are in attendance and to monitor your learning.
- Any assessment tasks that are due next week (i.e. from Monday 16 August to Friday 20 August) will be granted a two day extension from the due date to compensate for the two pupil free days of today and Monday. The exception to this is for practical tasks that cannot be submitted electronically, which will be granted a seven day extension from the due date. Check your Moodle pages for specific due dates.
- The Mentor lesson will be held as usual on Tuesday p. 4. This will be a virtual meeting that you must attend. Your meeting link can be found on your House Moodle page.
- If you are sick on a particular day, your parents need to email the front office following the normal JPC Process.
